Address

Universität Stuttgart

Institute of Biomaterials and biomolecular Systems (9th floor)
Pfaffenwaldring 57
D-70569 Stuttgart

Arrival using public transport (from main station):

The Institute is situated on the University Campus out of the town center. However, using the "S-Bahn" it can be reached from main station within 10 minutes. Take the Lines S1 to "Böblingen" or "Herrenberg", S2 to "Filderstadt" or S3 to Airport and leave the train at "Universität". Leaving the "S-Bahn", take a walk westward and follow the signs for the Institutes of Math, Physics and Biology.

For the S-Bahn you need a ticket for 2 Zones. When buying a ticket at the vending machine, press "002" for two zones (instead of figuring out the number of the station).

At the station "Universität", take the exit at the end of the train and walk up two stairs. To the left, you see the building of the Library, to the right is the building of the Institute of Electronic Engineering (Pfaffenwaldring 47). Walk between these two buildings a little to the left. On your left, you path a subsidiary of the "Landesbank Baden-Württemberg". Walk underneath the building Pfaffenwaldring 55 to reach number 57.

In the building 57, you find us on the 9th floor.

Have a good journey!

Travel by car

At the highway cross "Stuttgart" take A 831 in the direction "Stadtmitte-Stuttgart". Exit at "Universität" and take a left at the first traffic light. You are now on "Universitäts-Strasse". Pfaffenwaldring is a ring road that diverts to the left twice. Take the second diversion after passing the Subway Station (S-Bahn).

Travel by train

If you arrive at Main Station take one of the subway lines "S-Bahn" S1, S2 or S3 as described in the left box (public transport). If you arrive at the Airport, take the "S-Bahn" S2 or S3 in the direction "Main Station / Hauptbahnhof" and exit at the station "Universität". After leaving the station in the direction of travel, follow the way described in the left box.
