## Contents

### Opening Lecture

Mobility and Urbanity – Rethinking Models of the City  
*Johann Jessen (Universität Stuttgart, Germany)*  

### Plenary Session I – Impacts of Mega-Projects

Stuttgart 21 - A Model of Integration between Landuse and Transport  
*Wolfgang Arnold (Stuttgarter Strassenbahnen AG, Germany)*  

NEAT - A national Mega-Project with European Dimensions and Regional Impacts  
*Ulrich Weidmann (ETH Zürich, Switzerland)*  

The world's first eco-city: Dongtan, China  
*Peter Head (ARUP, United Kingdom)*

### Plenary Session II – Improving Urban Life

Traffic Management in Japan  
*Hideki Nakamura (Nagoya University, Japan)*  

Energyefficient Mobility in Megacities  
*Alexander Schmidt (University Duisburg-Essen, Germany)*  

Integrated Mobility and Settlement Strategies for Improving Urban Environment  
*Dirk Vallée (RWTH Aachen, Germany)*

### Plenary Session III – Smart Growth and Transportation

Beyond Urban Growth: Preserving transport-efficient land use in shrinking cities  
*Stefan Siedentop (Universität Stuttgart, Germany)*  

KLIMA: AKTIV MOBIL - The Austrian Initiative for Climate Protection in Transport launched by the "Lebensministerium"  
*Robert Thaler (Federal Ministry of Agriculture, Forestry, Environment and Water Management, Austria)*
Parallel Session I A – Network Planning and Optimisation

The Importance of Networks in Urban Planning Practice
Peter Robinson (Sustainable Urbanism Sydney, Australia)

Reforming Road and Railway Infrastructure charges in the EU new member states
Monika Bak, Barbara Pawlowska (University of Gdansk, Poland)

SMARTPLAN – Transport Masterplan for Belgrade
Rainer Schwarzmann (PTV Planung Transport Verkehr AG, Germany)

Activity based estimation of the value of time and willingness to pay of road users
Tobias Kuhnimhof (Universität Karlsruhe, Germany)

Parallel Session I B – Transport Economics

New Approaches in Transport Planning: Happiness and Economics
Amalia Polydoropoulou (University of the Aegean, Greece)

A Multi-Agent Planning Support System for Assessing Externalities of Urban form Scenarios
R. Katoshevski-Cavari (Eindhoven University of Technology, Netherlands; Ministry of the Interior, Israel)

Modelling Travel in the Context of Budget Constraints, Options and Routines
Christoph Gringmuth (CAS Software AG, Germany)

External Costs of Maritime Shipping in Europe
Niklas Sieber, Ulrike Kummer (Universität Stuttgart, Germany)

Parallel Session I C – Energy Consumption and Emissions

Sustainable Public Transport operations
Markus Wiedemann (Stuttgarter Strassenbahnen AG Stuttgart, Germany)

Cost-Efficient Provision of Accurate Foresight Route Information
Anne Carlsson (Universität Stuttgart, Germany)

Evaluating Energy Saving Measures in the Transport Sector
Frederic Rudolph (Wuppertal Institute for Climate, Environment and Energy, Germany)

Vehicle fleet management measures as important effect to CO2 emission reduction
Vladimir Momčilović (University of Belgrade, Serbia)
Parallel Session II A – Public Transport Planning

Public Transport as a Motor for the Local and Regional Economy: the European Dimension
Carmen Hass-Klau (Bergische Universität Wuppertal, Germany)

Verification of the transit stops capacity model
Anton Zedgenizov (Irkutsk State Technical University, Russia)

Analysis for Transit and Land Use – Synoptic Comparison of Two Approaches
Chris Hale (University of Queensland, Australia) and Bernd Raubal (Universität Stuttgart, Germany)

SELCAT - Safer European Level Crossing Appraisal and Technology
Eckehard Schnieder (Technische Universität Braunschweig, Germany)

Parallel Session II B – Data Collection and Management

Monitoring Travel Behaviour and Service Quality in Networks with Floating Phone Data
Markus Friedrich (Universität Stuttgart, Germany)

Usage of a quality management concept for data exemplified with stationary traffic data acquisition systems
Ralf Laufer (Universität Stuttgart, Germany)

How many FCD are needed for traffic management?
Peter Wagner (German Aerospace Center, Germany)

Validation of the HCM 2000 Technique for signalized intersections in Russia
Alexey Levashev, Alex Mikhailov (Irkutsk State Technical University, Russia)

Parallel Session II C – Integrated Land Use and Transport Planning

Advanced land use modelling and land suitability ranking using GIS
Stefan Fina (Universität Stuttgart, Germany)

Environmental Feedback in Urban Land-Use Transport Models
Klaus Spiekermann (Spiekermann & Wegener, Germany)

Land Use and Transport Planning Asses implementations in the frame of the Cities of Tomorrow
Ralf Risser (Factum OHG, Austria)

Services and Service Traffic – A Reappraisal from the Perspective of Transportation Geography
Julius Menge (German Aerospace Center, Germany)
Parallel Session III A – Railway Planning and Operation

Does the TSI Bring Real Interoperability?
György Bessenyei (Budapest University of Technology and Economics, Hungary) 34

FreeFloat – Integrated Planning and Traffic Management for Rail
Andreas Oetting (DB Netz AG Frankfurt/Main, Germany) 35

An Innovative Approach of Capacity Research of Railway Infrastructure
Peter Breuer (Universität Stuttgart, Germany) 36

Rail Path Pricing is an Important Instrument to Fund the Rail Infrastructure in a Non-Discriminatory Way
Philipp Schmidt (Swiss Federal Institute of Technology Zürich, Switzerland) 37

Parallel Session III B – Traffic State Estimation

Model Extensions for Online Highway Traffic State Estimation considering Cars and Trucks
Martin Schober (Universität Stuttgart, Germany) 38

Online Traffic State Estimation with Multi-Agent Simulations
Gunnar Flötteröd (Technische Universität Berlin, Germany) 39

Calculation travel times from spatiotemporal loop-detector data
Arne Kesting (Technische Universität Dresden, Germany) 40

Tagging of Incidents from Scattered Historical Large-Scale Traffic Data Sets
Georg Förster (Fraunhofer Institute for Transportation and Infrastructure Systems, Germany) 41

Parallel Session III C – Urban and Regional Transport Planning

Improving planning for accessible transport systems
Enne de Boer (TU Delft, Netherlands) 42

Cycling to School - Stuttgart's Pupil and Students Survey - a Unique Data Basis and its Meaning for Transport Planning
Susanne Scherz (City of Stuttgart, Germany) 43

The experience of the Province of Bologna in integrating urban and mobility sustainable planning
Alessandro Delpiano (Provincia di Bologna, Italy) 44

Investment and pricing of transport infrastructure and changing morphology of global cities with specific reference to India
Amitabh Kundu (Jawaharlal Nehru University New Dehli, India) 45
Abstracts of Posters

Transportation System Planning

Pedestrianisation of City Streets in Cape Town
Naadiya Moosajee, Marianne Vanderschuren (University of Cape Town, South Africa) 46

Dissymetry in the European Offer of Integrated Intermodal Travel Attributes
Kerstin Burckhart (Institut d’Estudis Territorials, Barcelona, Spanien) 47

Evolution of Regional Planning and Regulation of Public Transport Companies and Services. An Italian Case
Francis Cirianni (University Reggio di Calabria, Italy) 48

An Integrated Mobility Plan for the Cracow University of Technology
Katarzyna Nosal (Cracow University of Technology, Poland) 49

Travel Demand Model Derived Optimal Bus Route for Khulna City, Bangladesh
A.K.M. Fazlur Rahman (Ministry of Planning, Bangladesh) 50

KITE – A Knowledge Base for Intermodal Travel in Europe
Matthias Wirtz (Universität Karlsruhe, Germany) 51

Public Transport Safety and Security Improvement in Krakow
Lukasz Franek (Cracow University of Technology, Poland) 52

Comparing the Incomparable: Cost Structures of Transportation Systems
Reinhold Schröter (Leibniz Universität Hannover, Germany) 53

Robust estimation of Origin-Destination matrix from volumes counts
Roman Y. Lagerev (Irkutsk State Technical University, Russia) 54

A Model for Ranking and Selection of Operators in Urban Public Transport Systems
Predrag Živanović (Belgrade, Serbia) 55

Traffic Control and Telematics

How can C2I-Communication Improve the Traffic Flow in Urban Networks? –
A Method for Queue Length Approximation within Signalized Intersections
Christian Priemer (Leibniz Universität Hannover, Germany) 56

"i-Travel" Service platform for the Connected Traveller
Paul Kompfrner (ERTICO, Brussels, Belgium) 57

Traffic Management in Emerging Mega Cities using Vehicle Probes for Data Collection
Reinhart Kühne (German Aerospace Center, Germany) 58

TRAVOLUTION - Adaptive Urban Traffic Signal Control with an Evolutionary Algorithm
Robert Braun (Technische Universität München, Germany) 59

Model of a traffic-adaptive cruise control system
Arne Kesting (Technische Universität Dresden, Germany) 60
Practical Implementation of an Extended Cell Transmission Model for Offset Optimization in Urban Road Networks
Jannis Rohde (Leibniz Universität Hannover, Germany)

Car-pooling system in Stuttgart
Regina Lüdert (City of Stuttgart, Germany)

Regional traffic management - More efficiency through co-operation?
Susanne Jenkner (Inst. f. Automation und Kommunikation Magdeburg, Germany)

Safety Estimation for Intergreen Intervals at Signalized Intersections in Japan and Germany through a stochastic approach
Keshuang Tang (Nagoya University, Japan)

Transportation and Environment

A Spatial Analysis of Job Openings and Transport Accessibility among the Informal Labours in Megacity Dhaka
Ahmed Saleh (International Labour Organisation, Geneva, Switzerland)

Integration of Sustainable Transport, Mobility Management and Land Use Planning in Polish Reality
Aleksandra Faron (Cracow University of Technology, Poland)

Mobility, Transport, City
Silvia Pupareli (Buenos Aires, Argentina)

Improvement in the Transport Infrastructure Accessibility as important factor of the regional development in Poland
Aleksandra Kożłak, Barbara Pawłowska (University of Gdansk, Poland)

Impact of traffic congestion on fuel consumption and emissions – Applying a fuel consumption model to vehicle trajectories
Martin Treiber (Technische Universität Dresden, Germany)

Integrated Assessment of Technical Oriented Paths for the Future Cars Powertrain on a Swiss Case Study
Fabrizio Noembrini (Swiss Federal Institute of Technology Zürich, Switzerland)

The CIVITAS Initiative - Developing integrated strategies for clean urban mobility in Europe
Siegfried Rupprecht (Rupprecht Consult, Germany)
