SUPER – Stuttgart University Program for Experiencing Research
Project Information

Institute’s Information
Name of Institute: Institut für Kunststofftechnik (IKT) – Institute for Plastics Technology
Contact Person: Richard Schöenlein
Phone: +49 711 685 62855
e-mail: richard.schoenlein@ikt.uni-stuttgart.de

Duration of Project/Number of Students
June/July
June/July/August: 3 Month
Number of Students: 1

Name of Project: Examination of Variotherm Thin-wall Injection Molding Process of Bio-based Plastics

Beneficial Skills & Knowledge: first working knowledge of plastics technology
structured, initiative and independent working

Description of Work
You will support the research of the Institute for Plastics Technology (IKT) at the University of Stuttgart in the area of processing technology. While working independently on new injection molding solutions in our laboratories, you will learn more about mechanical material testing and thermal analysis in the area of plastic materials. An exciting project is waiting for your participation.
