International Business with Case Studies in German Automotive Industry

Lecturers: Dr. Milenka Plavec

Course Objectives and Description:

An understanding of international business is essential for students in today’s interdependent global economic, political, cultural and social environment within which firms operate. It will examine the strategies and structures of international business and assess the special roles of an international business’ various functions. It will also prepare students to formulate and execute strategies, plans, and tactics to succeed in international business ventures.

Methods of:

- in-class exercises
- mini-Projects
- homework
- case studies

will demonstrate real-world applications of international business and management concepts.

At the end of the course students should be able to:

- understand the most widely used international business terms and concepts,
- identify the role and impact of political, economic, social and cultural variables in international business
- analyze international business from a multi centric perspective, avoiding ethnocentrism

An integrated teaching model will be adopted by combining lecturing with group discussions, individual assignments, home exercises, case analysis and presentations. Special attention will be given to automotive industry in Germany and European Union. Field trips to production sites and/or automotive museums will be offered along with company presentations, case studies, video clips, movies and guest lectures.

Course requirements & grade:

In-class case studies participation, attendance (25%), homework (25%), team presentation (50%), equivalent to 4 ECTS

Class attendance is required as an essential part of learning process. Bonus points will be awarded to those who actively participate in class discussions.
Course Schedule:
45 contact hours/4 ECTS
