

Additional information sheet / supplementary form for the study program M.Sc. Computer Science

[Regarding digital accessibility: If you have issues filling in the form, please contact stefanie.anstein@ims.uni-stuttgart.de.]

Last name, first name

Name of your Bachelor program:

University of the Bachelor program:

Your final grade:

Grading scale of your University:

maximum (best) grade:

minimum grade to pass:

For which major are you applying (please decide for one option only):

<input type="checkbox"/>	Autonomous Systems in Computer Science
<input type="checkbox"/>	Service Technology and Engineering
<input type="checkbox"/>	Visual Computing

Please also add (if available; **optional**):

<input type="checkbox"/>	a 1-page letter of motivation / research statement
<input type="checkbox"/>	title and short description of contents of your (Bachelor) thesis -- max. 100-150 words
<input type="checkbox"/>	reference letter (can currently be uploaded by applicant only)
<input type="checkbox"/>	publication list

Note: You can attach other relevant information to this form.

In order to get a better understanding of your fundamental skills, please fill in the courses you have taken which you believe are relevant for the M.Sc. Computer Science.

Please distinguish between courses related to your selected major, theoretical and practical skills.

[1 ECTS credit point is worth 30h student time (presence and self-studying).]

Courses that support your qualification for the selected MAJOR	ECTS points	achieved grading

Courses of your Bachelor curriculum in the field of THEORETICAL skills in Computer Science (e.g. algorithms, theory of complexity, predictability, numerics, ...)	ECTS points	achieved grading

Courses of your Bachelor curriculum in the field of PRACTICAL skills in Computer Science (e.g. databases, compilers, programming languages, ...)	ECTS points	achieved grading
