EXAM / MODULE REGISTRATION
BSc MSV & MSc CL

Most important message for today :)

Be(come) aware of the course-module mappings for all your courses.

(Project Seminar CL)

Official registration for exams/modules

- **binding** registration for modules in C@MPUS:
  usually open for 3 weeks each semester
- registration is **only** possible during the registration period;
  otherwise grades and CPs will **not** be entered into C@MPUS
  (screenshot/download of (de-)registrations recommended;
  examination office and examination board are very strict about this)
- no need to register for Key Qualification modules now
- no need to register for the Research Module CL (will be done
  automatically)
- right of academic accomodation (email exam board)
- Corona special: also register for exams if you plan to but you're not
  sure you'll be able to attend the exam due to external factors
  (if you're in need of special solutions due to your situation, please
  contact us)

To keep in mind: de-registering exams/modules

- check the 'exam type' of the modules
  in the module description/handbook
  (via C@MPUS – Search – degree programmes – book icon):
  - LBP = *lehrveranstaltungsbegleitende Prüfung* (several tests, presentation, project)
  - PL = *Prüfungsleistung* ('real' exam)
  - BSL/USL = *(un)benotete Studienleistung* ('test'; (un)graded)
- you can withdraw from an LBP module registration only until the end of the respective registration period
- you can withdraw from a PL module registration until 7 days before the respective exam takes place
  (otherwise, a medical certificate is needed as soon as possible for the exam not to be counted as "failed")
- you can leave BSL/USL module registrations open without consequences

Dropping & repeating exams/modules

- failed examinations can be repeated once (without consequences); re-registration is necessary!
- a second repetition of a module exam (if exam='PL'/'LBP', see module description) is only allowed for 2 modules in total during your BSc studies, 3 for MSc
- if you fail the second written repetition of a module exam (if exam='PL'), there is a last oral exam (only pass/fail)
- CL: 2 failed modules can be dropped (informal declaration with the examination office)

Please note: Any kind of plagiarism can be a reason for failing exams.

For which modules can your course be used?

C@MPUS

[...]
Status within Curriculum

∧ My Degree Programmes

Electrical Engineering and Information Technology - Bachelor of Science (1590 82 048 1), 048-2016

∨ Core Modules / Electrical Power Engineering / Lecture: Eletricial Power Engineering II

Subject type Compulsory subject | **Recommended** 3rd semester

→ Go to my programme

[...]

NB: The course lecturer can be different from the module examiner.

Which courses can be used for a module?

This is e. g. relevant for combination modules such as "Topics in NLP".

Registration for 'container' modules

- for modules containing several courses, register in the semester in which you will finish **all** parts (e. g. some 6-CP elective modules such as "Spoken Language Understanding")

2 SWS
3 CP

(Project Seminar CL)
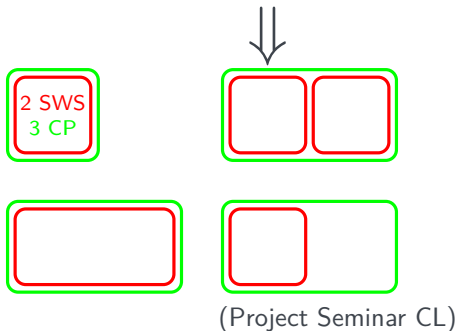

STEP 1: Registration in C@MPUS
C@MPUS
Find the module in the module tree
(if you don't find it, please let me know)

If there are 2 exams (P), register for both!

Check C@MPUS

C@MPUS
Exams you are registered for by 24.11.2020 12:06

| No.	Sem.	ID of Programme	Type	Title	Registration status	Examiner	Date	Place	Deregistration until	Operations

STEP 2: Module table / course-module mapping

- some courses can be used in several different modules – your choice
- C@MPUS doesn't allow (yet) making the link between your course registrations and your exam/module registrations, but we need this mapping for entering your grades
- obviously, each course can be counted only once – we'll check this before entering your grades and CPs into C@MPUS

Module table / course-module mapping

- for CL students who have started before SS19:
  - a completed "module table" has to be handed in via ILIAS for each semester
  - download module table:
    `https://www.student.uni-stuttgart.de/en/study-programs/`
    `Computational-Linguistics-M.Sc-00003./?page=examinations`
  - upload in ILIAS **until the end of the registration phase**:
    *Magazin – Ingenieurwissenschaften – Maschinelle Sprachverarbeitung / Computational Linguistics – **Arbeitsgruppen – MSc CL @ IMS – MSc CL Module Tables***
- for CL students who have started after SS19 and for **all** BSc students:
  - the mapping has to be entered into the course-module mapping table in ILIAS **until the end of the registration phase**:
    *Magazin – Ingenieurwissenschaften – Maschinelle Sprachverarbeitung / Computational Linguistics – **Arbeitsgruppen – Studying @ IMS – my course-module mapping***

Module table

Module table for the MSc Computational Linguistics (PO 2017), University of Stuttgart

Last Name, First Name: **Matriculation no.:**

By uploading this document to ILIAS, I confirm the correctness of this module table and its consistency with the versions I submitted earlier (1 document per semester; include all courses incrementally; in your last semester, 60 elective CPs have to be included). I know that I am not allowed to use any course for more than one module. [Don't list obligatory courses.]

WiSe/SuSe 20___(/20___)   **Date of this version:**

download: http://www.ims.uni-stuttgart.de/studium/interessierte/studiengaenge/cl-msc/pruefung.en.html
obligatory upload (one per semester): ILIAS – Ingenieurwiss. – Masch. Sprachv. / Comp. Ling. -- Arbeitsgr. – MSc CL @ IMS – MSc CL Module Tables
[Grades will only be entered in C@MPUS with a correctly uploaded module table.]

	Module name (as registered in C@MPUS)	Courses used for the module (1 course of 2 SWS per line)	Course lecturer's name	Semester in which course was taken [WiSe/SuSe Year(s)]	Semester of registration for module [WiSe/SuSe Year(s)]	Credit points for module	Catalogue (1x18+ / 2x6+ CP in Core/Applied/Speech)

Course-module mapping table in ILIAS

my course-module mapping

In this table, IMS students (all BSc MSV & MSc CL who have started in SS19 or later) have to indicate which elective courses they used in which modules (only for cases where there is no 1-to-1 mapping, i.e. where the course title is different from the module name). This information is needed to enter your grades and credit points into C@MPUS (there, this information cannot be made explicit).

Your data is only used for internal purposes, see also https://www.uni-stuttgart.de/en/privacy-notice/.

(1 - 41 of 41)   Rows ▾   View ▾   Export ▾

last name	first name	matriculation number ↑	course title	degree program	course taken in semester	lecturer's name	module name (number of CPs)	module registered in semester	comment	Actions
TEst	TEst	234523	dnhydetg	MSc CL	SS19	fhmnf	fhz	SS19	fhzmfhz	Actions ▾
MyLastName	MyFirstName	1234567	Hot and Odd Topics in Semantics	MSc CL	SS19	Michael Roth	Project Seminar Computational Linguistics (6 CP)	SS19		Actions ▾

Also use this for filling "Methods in CL" with 2 advanced courses (for CL graduates).

Additional hints

- some students have to fulfill conditions / requirements (*Auflagen*)
  - check in your original admission letter if yes or no
  - recommended taking the oral exam as soon as possible
  - if you want to do it this semester, register now in C@MPUS for your requirements module
  - more information in ILIAS: *Magazin – Ingenieurwissenschaften – Maschinelle Sprachverarbeitung / Computational Linguistics –* **Arbeitsgruppen – Auflagenmodul***
  - we'll contact you after the end of the registration period with more organizational details

In case of any individual questions ...

... concerning your studies, please ask:
