# EXAM / MODULE REGISTRATION BSc MSV & MSc CL

# Most important for today :)

Be(come) aware of

- the '**degree program terminology**'
- and the **course-module mappings** for all your courses!

## A. Catalogs vs. modules vs. courses

## B. Important: course-module mapping

(Project Seminar CL)

C@MPUS:

Course catalog → Course description → Status within Curriculum

# Official registration for exams/modules

- **binding** registration for modules in C@MPUS: usually open for 3 weeks each semester
- registration is **only** possible during the registration period; otherwise grades and CPs will **not** be entered into C@MPUS (screenshot/download of (de-)registrations recommended; examination office and examination board are very strict about this)
- no need to register for Key Qualification modules now
- no need to register for the Research Module CL (will be done automatically)
- right of academic accomodation (email exam board)
- Corona special: also register for exams if you plan to but you're not sure you'll be able to attend the exam due to external factors (if you're in need of special solutions due to your situation, please contact us)

# To keep in mind: de-registering exams/modules

- check the 'exam type' of the modules in the module description/handbook (via C@MPUS – Search – degree programmes – book icon):
  - **LBP** = *lehrveranstaltungsbegleitende Prüfung* (several tests, presentation, project)
  - **PL** = *Prüfungsleistung* ('real' exam)
  - **BSL/USL** = *(un)benotete Studienleistung* ('test'; (un)graded)
- you can withdraw from an **LBP** module registration only until the end of the respective registration period
- you can withdraw from a **PL** module registration until 7 (Covid: 1) day(s) before the respective exam takes place (otherwise, a medical certificate is needed as soon as possible for the exam not to be counted as "failed")
- you can leave **BSL/USL** module registrations open without consequences
- de-registrations can be done online for some of the modules, with a form for others (see C@MPUS)

# Dropping & repeating exams/modules

- failed examinations can be repeated once (without consequences); re-registration is necessary!
- a second repetition of a module exam (if exam='PL'/'LBP', see module description) is only allowed for 2 modules in total during your BSc studies, 3 for MSc
- if you fail the second written repetition of a module exam (if exam='PL'), there is a last oral exam (only pass/fail)
- CL: 2 failed modules can be dropped (informal declaration with the examination office)

**Please note: Any kind of plagiarism can be a reason for failing exams.**

# For which modules can your course be used?

C@MPUS

[...]

Status within Curriculum

▲ My Degree Programmes

**Electrical Engineering and Information Technology** - Bachelor of Science (1590 82 048 1), 048-2016

▼ Core Modules / Electrical Power Engineering / Lecture: Eletricial Power Engineering II

**Subject type** Compulsory subject | **Recommended** 3rd semester

→ Go to my programme

[...]

NB: The course lecturer can be different from the module examiner.

# Which courses can be used for a module?

☰ M [104670] NLP and Social Sciences ⌚ 📅

☰ P [104671] NLP and Social Sciences ⌚ 📅

☰ TV [1046701] NLP and Social Sciences ⌚ 📅

Lehrveranstaltungen im Studienjahr ◀ 2020/21 ▶

[401516000 21S 2SSt VO Ethics and NLP](#)

[403000030 21S 2SSt VU Introduction to advanced network analysis with R](#)

[403000032 21S 2SSt SE Advanced Topics in Emotion and Sentiment Analysis](#)

[403000040 21S 2SSt SE Argument Mining](#)

This is e. g. relevant for combination modules such as “Topics in NLP”.

# Registration for 'container' modules

- for modules containing several courses, register in the semester in which you will finish **all** parts (e. g. some 6-CP elective modules such as “Spoken Language Understanding”)

# STEP 1: Registration in C@MPUS

C@MPUS

Find the module in the module tree  
(if you don't find it, please let me know)

## STEP 2: Course-module mapping

- some courses can be used in several different modules – your choice
- C@MPUS doesn't allow (yet) making the link between your course registrations and your exam/module registrations, but we need this mapping for entering your grades
- obviously, each course can be counted only once – we'll check this before entering your grades and CPs into C@MPUS

# Course-module mapping table in ILIAS

- All MSV and CL students need to enter their mappings into the course-module mapping table **until the end of the registration phase**.
- *Magazin – Ingenieurwissenschaften – Maschinelle Sprachverarbeitung / Computational Linguistics – **Arbeitsgruppen – Studying @ IMS – my course-module mapping***
- `https://ilias3.uni-stuttgart.de/ilias.php?ref\_id=1654451&cmd=show&cmdClass=ildclrecordlistgui&cmdNode=yu:nh:ak&baseClass=ilrepositorygui`

# Example: course-module mapping table in ILIAS

## my course-module mapping

In this table, IMS students (all BSc MSV & MSc CL who have started in SS19 or later) have to indicate which elective courses they used in which modules (only for cases where there is no 1-to-1 mapping, i.e. where the course title is different from the module name). This information is needed to enter your grades and credit points into C@MPUS (there, this information cannot be made explicit).

Rows View Export

last name	first name	matriculation number ↑	course title	degree program	course taken in semester	lecturer's name	module name (number of CPs)	module registered in semester	comment	Actions
TEst	TEst	234523	dnhydetg	MSc CL	SS19	fhmnf	fhz	SS19	fhzmfhz	<a href="#">Actions</a>
MyLastName	MyFirstName	1234567	Hot and Odd Topics in Semantics	MSc CL	SS19	Michael Roth	Project Seminar Computational Linguistics (6 CP)	SS19		<a href="#">Actions</a>

Also use this for filling “Methods in CL” with 2 advanced courses (for CL graduates).

## Additional hints

- some students have to fulfill conditions / requirements (*Auflagen*)
  - check in your original admission letter if yes or no
  - recommended taking the oral exam as soon as possible
  - if you want to do it this semester, register now in C@MPUS for your requirements module
  - more information in ILIAS: *Magazin – Ingenieurwissenschaften – Maschinelle Sprachverarbeitung / Computational Linguistics – **Arbeitsgruppen – Auflagenmodul\****
  - we'll contact you after the end of the registration period with more organizational details
