- maximum study duration: 9 semesters (independent of visa)
- courses vs. modules
  - courses are accredited via modules; each course can be counted in only one module
  - course-module mapping:
    search for courses in C@MPUS via “Course catalog” and find linked modules under “Status within Curriculum”
- course registration is non-binding
- module exam registration is obligatory and binding
  - online registration: C@MPUS
  - module exam registration only possible during official registration period (as announced by the University: May/June & November/December) – otherwise participation not allowed (screenshot of registrations recommended)
  - for modules containing several courses, register in the semester in which you will finish all parts
- postponing / repeating exams
  - you can withdraw from an exam until 7 days before the exam takes place (otherwise, a medical certificate is needed as soon as possible in order for the exam not to count as “failed”)
  - failed exams can be repeated once (within 2 semesters; re-registration necessary!)
  - a second repetition of a module exam (type “PL”, see module handbook) is only allowed in 3 cases in total
- your individual course-module mapping: for all courses which have more than one linked module, each student has to enter his/her mapping in ILIAS for each semester before any grades will be entered
