

Registration period  
extended until 6 November

## What you can expect

- Globalization and increasing international teamwork show the importance of knowledge in transborder activities in construction.
- On the basis of selected examples of current and past international foreign projects, the differences and the special features concerning construction, contracts and the (construction) culture of various countries will be discussed, in comparison to Germany.
- The lecture will be given by **Dipl.-Ing. Steven Wilbreninck MBA**, a recognized expert in international projects, such as the construction of large sports facilities.
- The lecture is addressed to the students of **IuI Master-classes**, yet **civil engineering** and **bachelor students** are also welcome.
- The lectures are held in two blocks, each on two consecutive days – **participation is compulsory:**

**Block 1 & 2:** 19.-20.01.21 and 9.-10.02.21 (day events)

**Venue:** Online

- Performance will be evaluated by a group presentation and an exam (50/50 %).

## Enrollment

- **Enrollment online** in C@mpus **plus personally** with Mr. Sebastian Scharpf (via e-mail) and the following **deposit of a security in the amount of 50 € is obligatory**. You will get refunded after the course (no refund in case of no show).
- **Registration period** until 6 November 2020
- The number of participants is min. 15 to max. 30 students.
