

# Neue Module zum Wintersemester 23/24

Modulnummer	Modulname
108440	AI-Enabled Avionic Systems
108040	Analysis and Control of Nonlinear Flight Systems
108540	Aspects of sustainability in aviation propulsion systems
107720	Computational Fluid Dynamics with OpenFOAM: An Introduction
108080	Cyber-Security for Complex Systems
108090	Domain-specific Modeling and Analysis
108030	Nonlinear Flight Control Systems
107960	Numerical Simulation of Complex Flows
108110	Safe and Cyber-secure Complex Systems
108100	Safety for Complex Systems
107710	Turbulent Flow Simulations with Physical and Data-Driven Methods
