

**University of Stuttgart**  
Germany

## **Dual Career Program**

Get there together –  
get off to a flying start

## Dual Career Couples – Welcome to the University of Stuttgart!

Our goal is to make the University of Stuttgart an attractive destination for dual-career couples in order to win international top scientists to the Stuttgart region.

We attach particular importance to dual career issues during appointment negotiations at the University of Stuttgart.

We thus meet the challenge of supporting highly qualified scientists and their partners in their joint career planning with customized advice and other services.

## Who is the target group of the Dual Career Program?

We are pleased to support you as a

- newly-appointed full professor
- newly-appointed junior or tenure-track-professor, or
- new employee with a leading position in science management

## How are Dual-Career Couples supported?

The Dual Career Program offers information, advice and support in the following areas to make sure that Dual-Career Couples can live and work together in the Stuttgart region:

### **Job prospects for partners**

- Advice on careers and applications with a focus on specifications of the German job market
- Skills profiling
- Advice and support in looking for ways to build on previous professional experience and on career progression
- Information about continuing education opportunities and language courses

## Living and housing in Stuttgart

- Advice on balancing work and family
- Information about childcare facilities, schools and admission processes
- Assistance in finding accommodation

We are happy to help with any individual requirements you may have. However, we ask for your understanding that we cannot guarantee you any particular job, childcare arrangement or accommodation.

## Who are the cooperation partners of the Dual Career Program?

Our regional network partners include:

- The “dualcareersolutions” university network
- The Dual Career Center of the Stuttgart Region Economic Development Corporation and the associated network of companies
- Non-university research institutions
- Administrative bodies and ministries
- Associations and organizations
- Cooperation partners in business and science
